

Hello! My name is David Dooley. I am a professional looking for an opportunity to grow in web or print design. I am motivated, work hard and can multi-task. I started designing back in High School. Since then I've cultivated my love for design and am interested in taking on work and learning new things.

I know I would supplement any creative team nicely and bring leadership, responsibility and creativity to the table.

Professional Employment

Desktop Assistance / Electronic Memories

Graphic Designer

April 2004 – Current
